

# ISO/IEC 27001 Foundation

**APMG Accredited Course**

**INFORMATION SECURITY TRAINING**

**ACQUIRE THE FUNDAMENTAL KNOWLEDGE ABOUT THE CONTENT AND THE HIGH-LEVEL REQUIREMENTS OF THE ISO/IEC 27001**

## About this course

This three-day, APMG ISO/IEC 27001 Foundation course, allows participants to acquire the fundamental knowledge about the content and the high-level requirements of the ISO/IEC 27001 standard, as well as understand at a foundation level how the standard operates in a typical organization.

## Who should participate?

This course is aimed at those who are:

- Supporting the implementation, operation or maintenance of an Information Security Management System (ISMS) within an organization
- Required to audit an Information Security Management System (ISMS) and are required to have a basic understanding of the standard
- Working within an organization with an Information Security Management System (ISMS), whether the organization is already certified or is considering certification to ISO/IEC 27001.
- Preparing for the APMG ISO/IEC 27001 Practitioner qualification

## Learning Objectives

At the end of the course the participant should understand:

- The scope and purpose of ISO/IEC 27001 and how it can be used
- The key terms and definitions used in ISO/IEC 27000 series
- The fundamental requirements for an ISMS in ISO/IEC 27001 and the need for continual improvement
- The processes, their objectives and high level requirements
- Applicability and scope definition requirements
- Use of controls to mitigate IS risks
- The purpose of internal audits and external certification audits, their operation and the associated terminology
- The relationship with best practices and with other related International Standards: ISO 9001 and ISO/IEC 20000.

**Master the fundamental concepts of ISO/IEC 27001**

- Understand the fundamental concepts and requirements of an ISMS based on ISO/IEC 27001
- Understand the main controls listed on ISO/IEC 27001 Annex A that may be adopted by an organization to mitigate Information Security risks
- Understand the terminology, operation and purpose of internal audits and external certification audits
- Certify your skills and be worldwide recognized with an official APMG ISO/IEC 27001 Foundation certification

#### About ISO 27001

*ISO/IEC 27001 is an international standard that provides a framework for establishing an Information Security Management System (ISMS). The standard is designed to help organizations of all sizes and types to select suitable and proportionate security controls for information held electronically, on paper or other media. It provides a structured approach to help organizations work through their business processes, identify their information security weaknesses and create a tailored ISMS that takes account of their business risks.*
